## BARTEC

BPB125 Ex Push Button is designed according to ATEX and IECEx standards. It especially applies to Oil \& Gas, Chemical, Petrochemical, Refinery, Marine and Offshore Industries for the high-corrosion and hazardous areas.

It is compatible with PLC, DCS and ESD system with $4-20 \mathrm{~mA}$ output. It is ideal to be used as an Ex Manual Call Point for Fire Alarm System with addressable module fixed.

The design of two LED indicators (Green and/or Red) is unique. During normal operation, the Green LED is on. When device fault or alarm status arises, the green LED will be cut off and red LED will be on.

The product finish is power coating with strong adhesion. We provide colors of Red (RAL3001), Yellow (RAL1003) and Blue (RAL5005) for customer's selection.

- ATEX and IECEx approved
- Industrial and explosive gas/dust environment
- IP66
- Stainless steel material
- Power coating with strong adhesion
- Push button type
- Key reset
- Lift flap available as option
- Optional LED indicator
- Resistor and/or diode can be mounted

Technical Information - BPB125 Push button
